Brand New Book ***** Print on Demand *****.Excerpt from Folklore of Wells: Being a Study of Water-Worship in East and West For literary conceits and dreams of authorship there is no more powerful antidote than the tedium of official life. It radically cures all such morbid propensities. This little book, however, owes its inspiration to office routine. It was in connection with official business that my interest in the subject of water-worship was awakened about six years ago when in my capacity as Municipal Secretary of Bombay I received several protests against requisitions for the closing of wells. In the course of its campaign against malaria the Municipality had to call upon owners of wells breeding anopheles mosquitos to close them. The owners protested against these orders and in their petitions they cited traditions concerning the sanctity of water and related stories of spirits residing in the wells which to one ignorant of the social organization and customs of the people might appear to be nothing more than old wives tales and babble, or mere pretexts to shirk civic responsibilities, but which a student of traditional lore has learnt to prize as priceless fragments of information concerning the condition of human thought of bygone ages. Often during ones investigation of such local accounts one comes across examples where history is in close contact with popular tradition, illustrating abundantly the inherent value of what Sir Henry Mame slightly called the slippery testimony concerning savages which is gathered from travellers tales.
