But weapons are reinstated when Bond is put on the trail of the self-made billionaire Sir Maxwell Tarn, whose business empire spans the globe, and whose activities appear to include illegal dealing in weapons on a grand global scale With the shrewd assistance of Flicka von Grusse, 007 follows a maze of trails from London to Spain, Israel and Germany. But they are on board Tarn s floating laboratory off the coast of Puerto Rico when their own prey becomes their captor. There, Bond and Flicka realize their misstep has placed them squarely in the audience to a deadly experiment that will trigger ecological disaster of global proportions The fate of the oceans, not to mention their own lives, lies in stopping Tarn before his cache of deadly weapons destroys much more than a few pristine islands in the Caribbean.
