Brand New Book ***** Print on Demand *****.Excerpt from The Dominion Educator Botany Bay, a bay in New South Wales twenty miles in extent, so called on account of the great number of new plants collected in its vicinity. It was entered by Captain Cook in 1770, when he took possession of New South Wales in the name of the British sovereign. Bot fly, the common name of a class of flies that are very troublesome to stockmen. They are heavy-bodied, hairy insects, somewhat resembling bumblebees. The botfly which preys on horses and cows lays its eggs upon the hairs of the animal s flanks or legs, and the larvae, when hatched, are licked up by the tongue and taken into the mouth, stomach and intestines, causing much injury and suffering. The larvae of other species burrow inside the nostrils of stock, and there are some which live under the skin of the animals. Cattle which have lumps on their backs show the presence of botfly larvae. Kerosene injected into the spots will destroy the grubs. Bothnia, bahth ni a, Gulf of, a gulf...
